

Company Overview

American Technical Fabricators, LLC is an industry leading contract manufacturer and integrator of electronic enclosures, sign systems, and industrial machinery located in Bad Axe, Michigan.

The company was formed in July, 2005 through the acquisition of the manufacturing tooling and equipment of Vultron, Inc. The new company's managers and employees had already worked and operated Vultron's Bad Axe, MI facility as the manufacturing arm of Vultron for over 20 years. For a period of time, the company operated as a out-source manufacturer for Vultron and other companies. After Vultron and its parent company, Trans-Industries dissolved through the federal bankruptcy process in the 2nd quarter of 2006, ATF purchased all remaining key manufacturing, tooling, inventory, computer and IT equipment, furniture, and rights to support the existing Vultron customer base.

The company's 66,000 sq. ft. operations are customer-centric and fully integrated utilizing state of the art PC, MRP, and Design applications. We feature equipment such as:

Fabrication Equipment

- Strippit Model 1250 – 20 station, CNC controlled turret punch, with large selection of tooling
