

Company Profile

Experience:

With over 50 years of manufacturing, custom fabrication, and electronic assembly and integration knowledge, American Technical Fabricators is your best solution for all of your electronic display, electronics integration, and custom fabrication needs. As the former manufacturing division of Vultron, Inc., we have been an integral part of the deployment of over 3,000 signs around the world. From design, testing, and project management, to after-delivery service and support, you can't beat our people...and it shows!

Innovation:

With our customer-centric approach, we ensure that our products and services meet or exceed your expectations every step of the way. Our in-house staff of designers, engineers, and technicians can customize your solution so that it completely fulfills your requirements and design needs.

Service and Support:

With our staff of highly-trained and qualified technical professionals, as well as over 400 contracted and certified professionals throughout North America, American Technical Fabricators offers one of the most comprehensive installation, repair, and support programs available today. Whether your company requires helpdesk support, preventative maintenance programs, quick-response field service, or OEM qualified factory repair service, ATF can custom-tailor an affordable and effective service program to ensure that your display products are achieving maximum impact and value.

Value:

We are a relationship-based company that believes in providing added-value through great products and services. By focusing on your business goals and needs, ATF will add significant value to your manufacturing process, marketing efforts, or customer's experience. Quite simply, our solutions are tailored to exceed your and/or your client's needs.

*Our goal is to provide you with quality products,
priced right and on time...
You shouldn't settle for anything less!*
